

# Lead cover 10314-20-20

Long version

## Product description

Lead Cover for concealed fitting

With integrated break-proof flex cable, clamp-plug connection technology and installation housing on both sides.

Installation system for minimal room dimensions and unobstructed movement. This system is particularly suitable for door systems with reduced spacing for hinges and inside hinges.

The advantage of this fitting type is being able to position the door nearly flush with the frame (<1 mm reveal when door is closed). Minimal gaps for door rotation, as with inside hinges, for instance, do not result in the door jamming.

## Scope of delivery

- Lead cover

## Note

- Long version

## Technical data

Contact resistance per signal	0,35 Ohm
Input operating voltage	24 V +20%
Max. current consumption	1 A 100% ED, 4 A max. 1 sec. 10% ED
Version	Beidseitige Einbauwanne
Material spiral hose	Stainless steel
Length	519 mm
Width	24 mm
Depth	33 mm
Cycles at 180 turns	1000000
Version	Plug-in device
Material spiral hose	Stainless steel
Max. permissible horizontal rotation	200 mm
Signal transmission	10-pin
Area of application	Installation system for minimal room dimensions and unobstructed movement.
